

# Getting Started with Archiving

Presenter: Daniel Featherstone

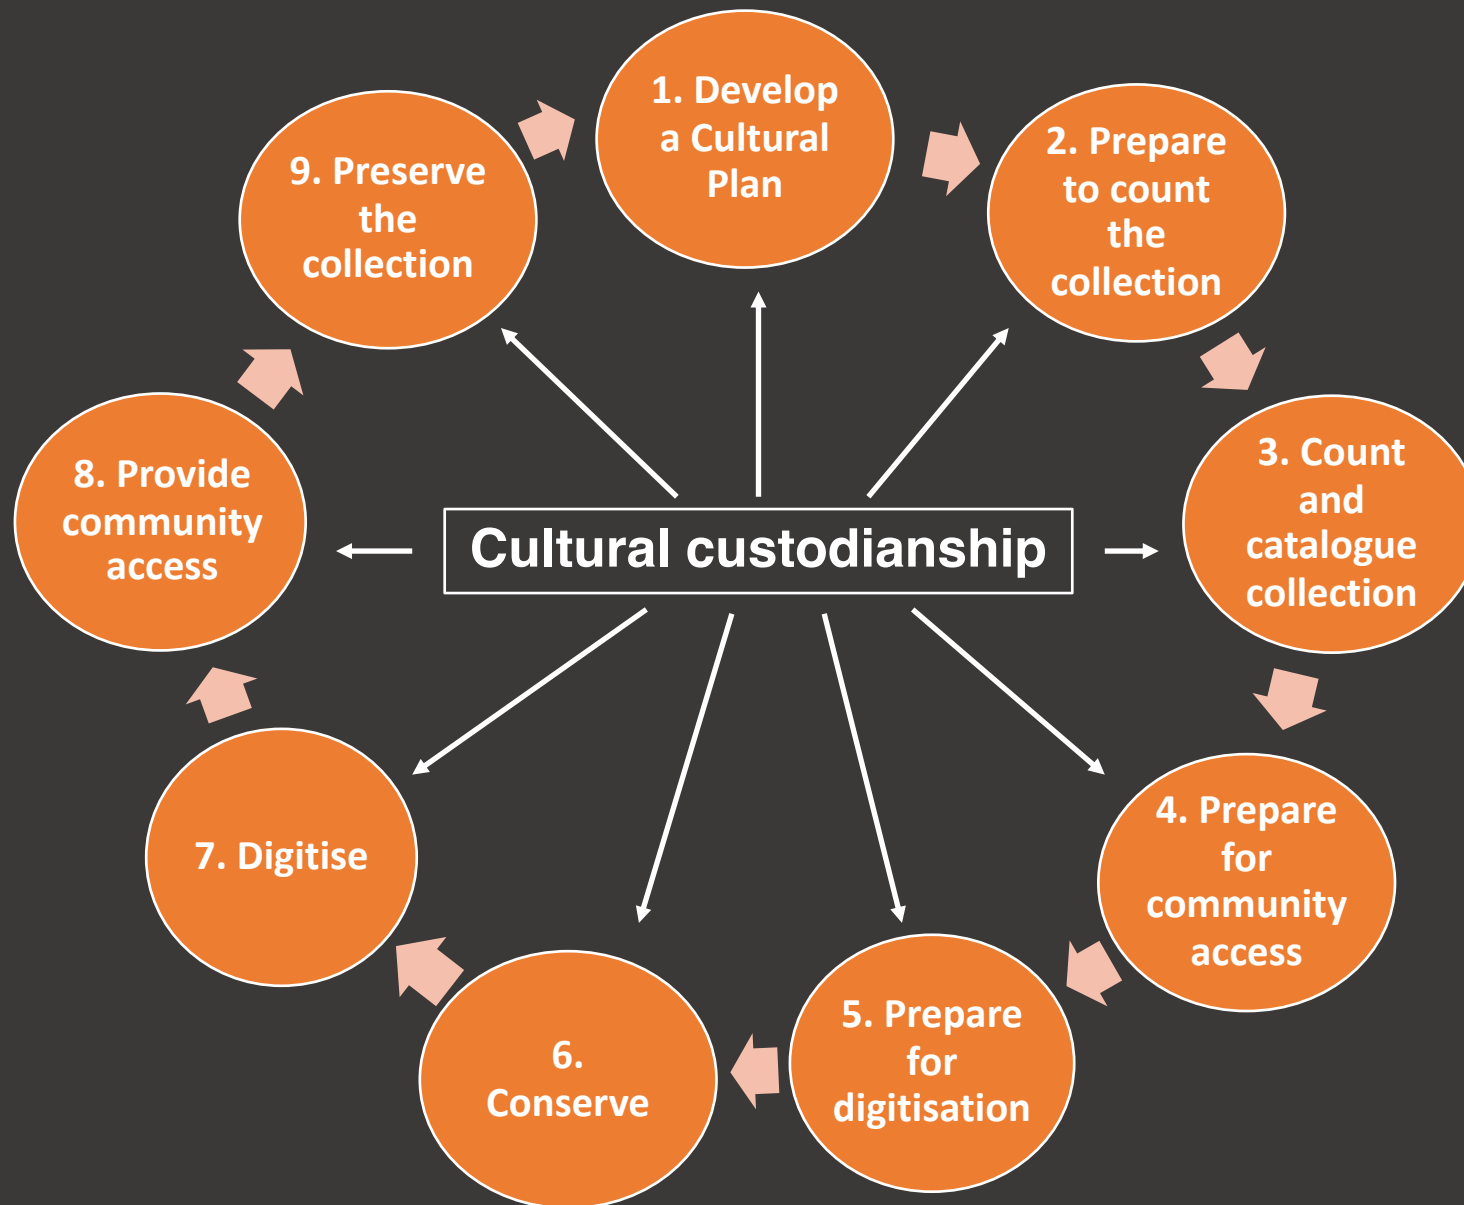

# The challenges

- Huge collections constantly growing
- Poor storage conditions
  - Lack of secure storage space
  - Dust, heat, humidity, and more
- Various media formats and types
  - audio, video photography
  - analog / digital
- Culturally sensitive and deceased content
- Lack of staff and training to do archiving
- Lack of funding

Where to start?

# The 9 Key Steps

FIRST NATIONS MEDIA AUSTRALIA

**ACTIONS FOR DEVELOPMENT OF FIRST NATIONS COMMUNITY MEDIA ARCHIVES**

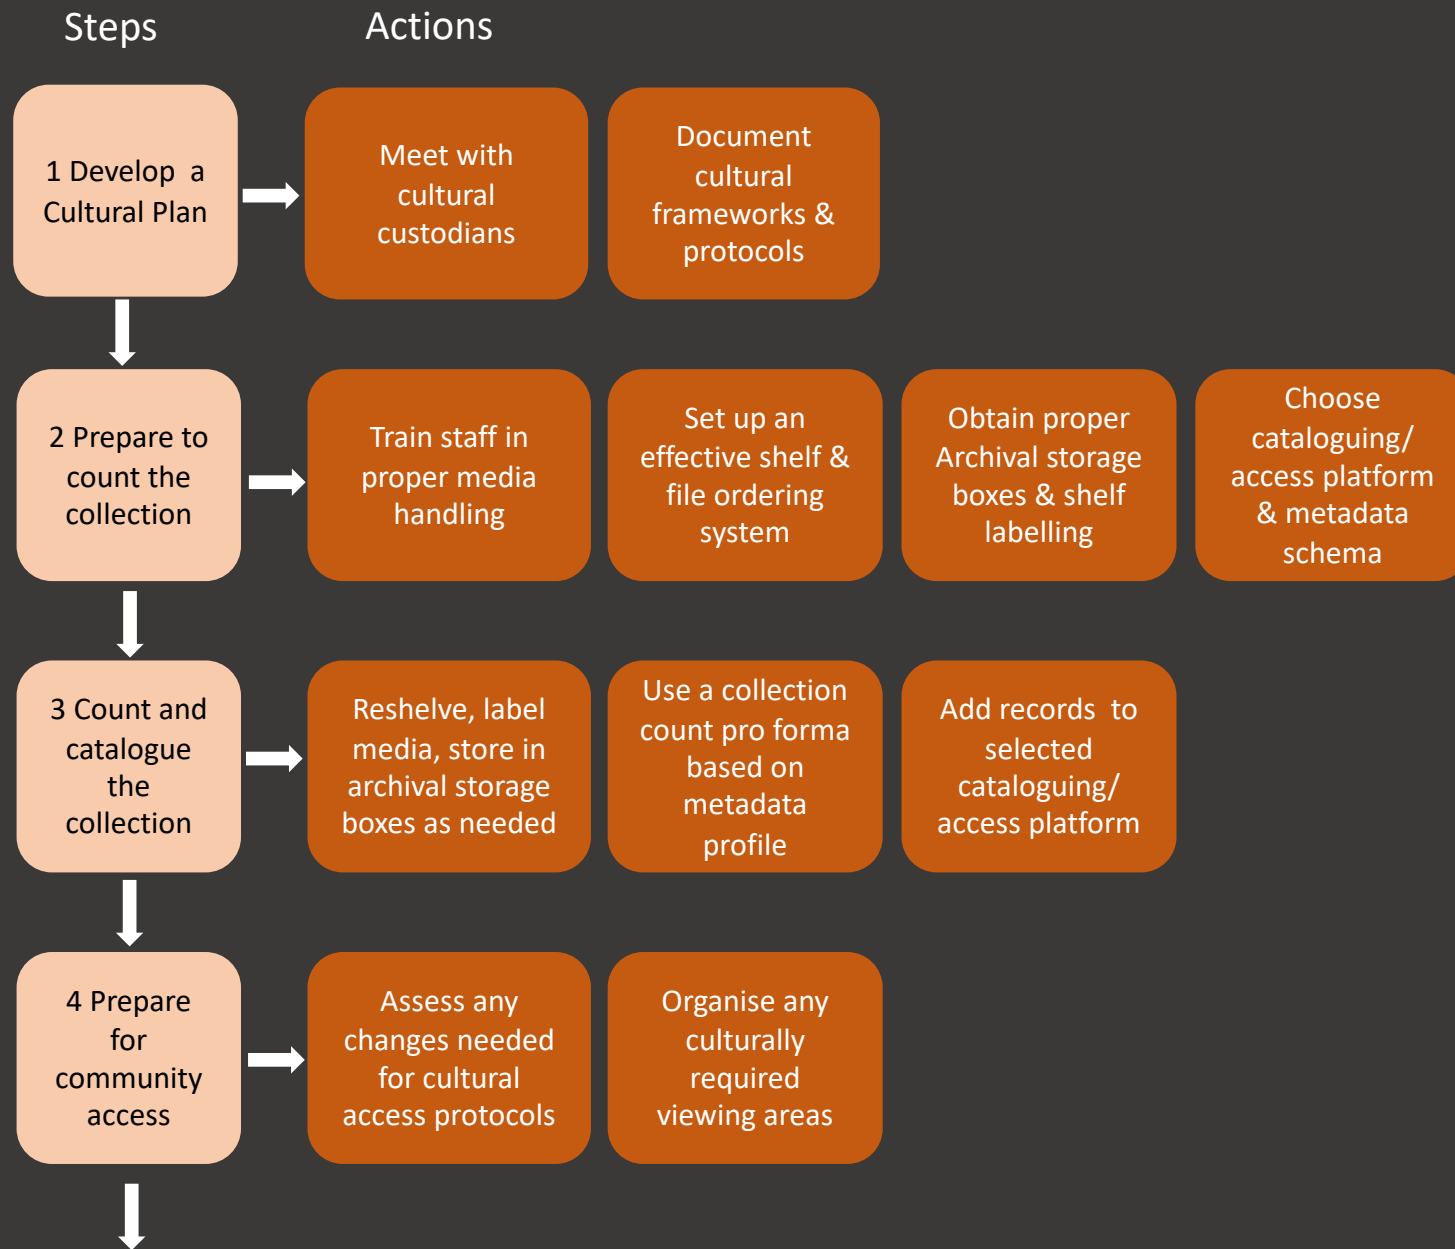

[www.firstnationsmedia.org.au/fnmar-archiving-resources](http://www.firstnationsmedia.org.au/fnmar-archiving-resources)

**SUPPORTING ACTIONS**

Significance & Preservation Needs Assessments	Collection Management Plan	Disaster Management Plan	Archive Policies
---	----------------------------	--------------------------	------------------

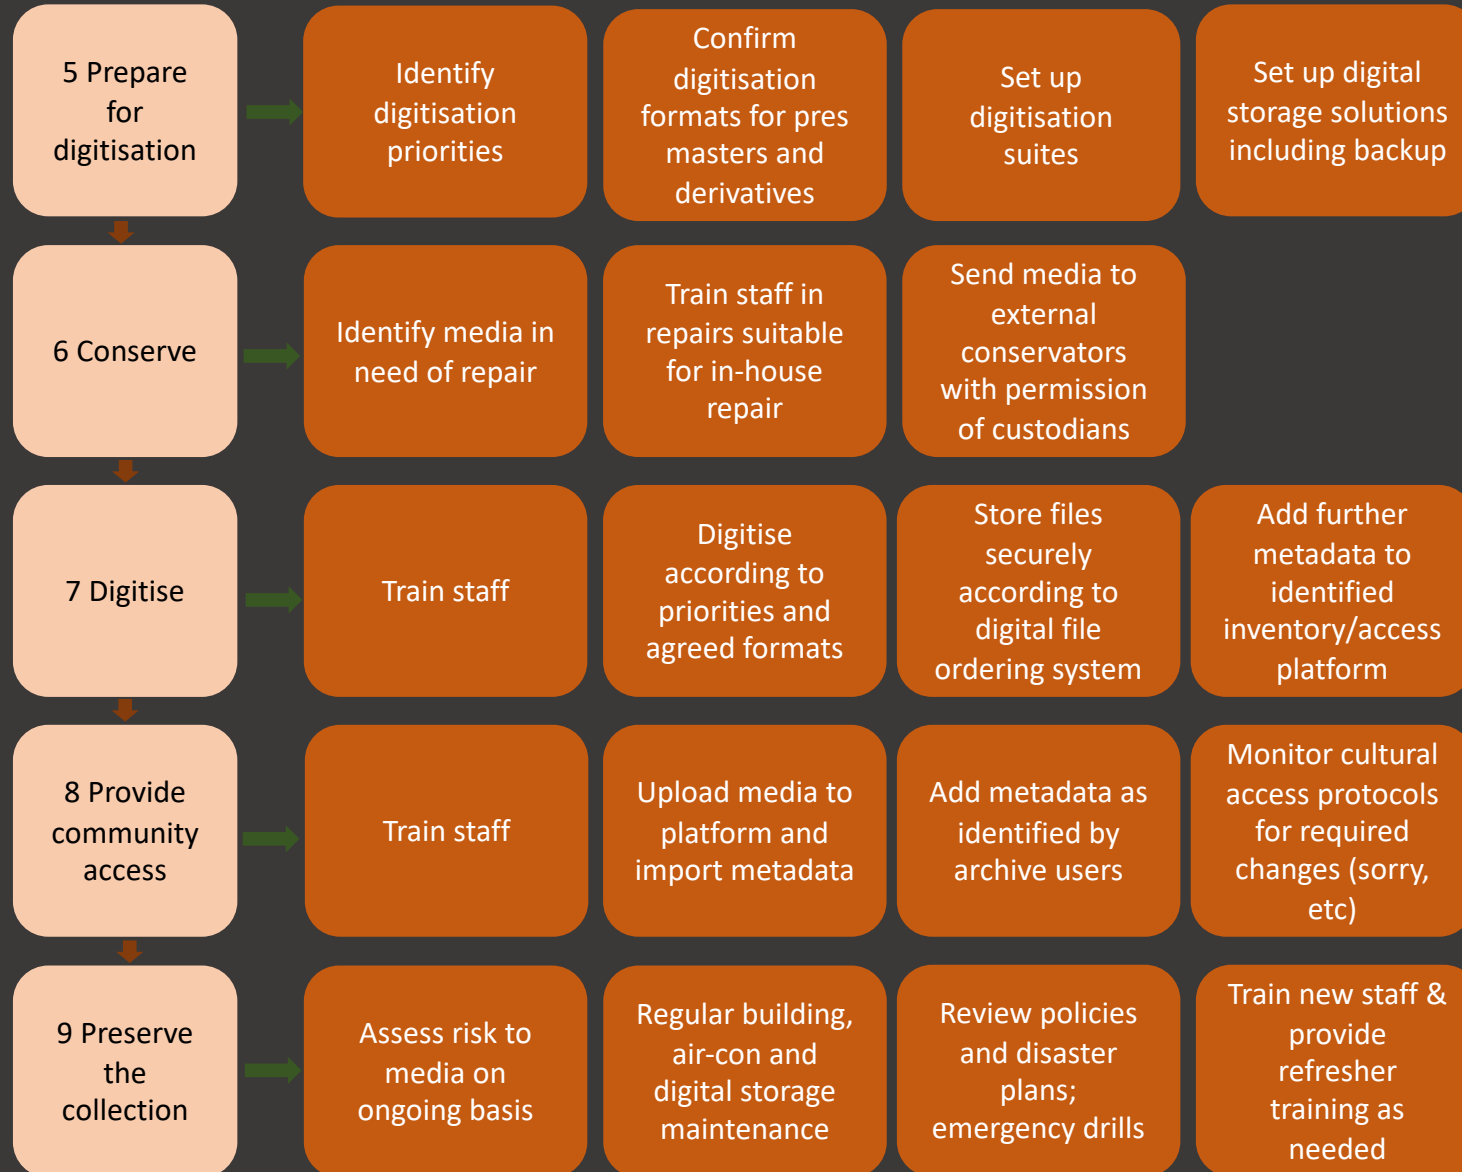

**DEVELOPMENT ACTIONS**

- 1 DEVELOP A CULTURAL PLAN**
  - Meet with cultural custodians
  - Document cultural frameworks & cultural protocols
- 2 PREPARE TO COUNT THE COLLECTION**
  - Train staff in proper media handling
  - Set up effective shelf & file ordering systems
  - Obtain proper Archival storage boxes & shelf labelling
  - Choose inventory/cataloguing/access platform and a metadata schema
- 3 COUNT & CATALOGUE THE COLLECTION**
  - Reshelve, label media, store in archival containers as needed
  - Use a collection count proforma based on the agreed metadata profile
  - Add records to selected inventory/cataloguing/access platform
- 4 PREPARE FOR COMMUNITY ACCESS**
  - Confirm cultural restrictions for counted media; reshelve or reorder as needed
  - Organise any culturally required viewing areas

## Steps

## Actions

# Planning the Archive

## 1. Develop a Cultural Plan with cultural custodians:

- Who can use the Archive?
- Who will look after the Archive?
- Where to store physical and digital records?
- How to manage sensitive or sorry content?
- What information can be included?
- Who has access to the archive? How?
- How can items be used/shared?

## 2. Develop a Collection Management Plan and Policies

## 3. Use this Plan help get funding and partners (eg NLA Community Heritage Grants)

See FNMA Resources: 'Assessing and Planning Your Archive'; 'Developing a Cultural Plan and Collection Management Plan' and Templates

## Template

PART 1 THE HISTORY OF OUR ARCHIVE	
PART 2 WHAT WE HOLD IN OUR ARCHIVE	
PART 3 THE SIZE OF OUR ARCHIVE COLLECTION	
PART 4 WHAT ISN'T KEPT IN OUR ARCHIVE	
PART 5 HOW CULTURAL CONTENT IN MEDIA OBJECTS IS MANAGED BY OUR ARCHIVE	
PART 6 WHO CAN USE OUR ARCHIVE AND THE CONDITIONS OF ACCESS	
PART 7 HOW WE RECORD WHAT'S IN OUR ARCHIVE, STORE IT AND MAKE IT AVAILABLE	
PART 8 WHO OUR ARCHIVE STAFF ARE	
PART 9 WHAT ARCHIVE PLANS AND POLICIES WE HAVE IN PLACE	
PART 10 (Optional) OUR CHALLENGES	
PART 11 (Optional) OUR ARCHIVE PARTNERS	

# Cataloguing your collection

- Start with an inventory of collection using Excel or Google Sheets
- Inventory can be expanded later to a full catalogue with all data fields.
- Work from the label – don't play video or audio recordings yet.
- Ask Cultural custodians/archive worker so identify Cultural Access value (Open, Closed, Sensitive, Restricted for example).
- Make an initial decision on whether you plan to digitise or not.
- Set up a naming/ ID system for collection
- Assess condition of the object – fragile or damaged items may need specialist attention (eg NFSA or AIATSIS).
- Use AIATSIS Thesauri for place names, subjects, language names <http://www1.aiatsis.gov.au/>

See FNMA Resources: Counting and recording the Archive Collection; Directory and File Naming; Metadata profiles and templates for inventory and cataloguing

## Inventory Data Fields

- Title
- Date
- Genre
- Content summary
- If Analog object:
  - Format of original
  - Physical format
  - Location of object
- If Digitised or Born Digital
  - Digital Container format
  - Location/file name
  - Encoding format
- Cultural rights category
- Administrative fields
  - Record created date
  - Record created by
  - Processing complete

The screenshot shows the AIATSIS Pathways website. At the top, it says "AIATSIS Pathways Gateway to the AIATSIS Thesauri". Below this, there are navigation links for "Subject Thesaurus", "Place Thesaurus", and "Language Thesaurus". Each link includes options for "Search / Browse By Letter", "Browse By Top Term", and "Place Help". There is also a "Download The Thesauri" link and a "Contact Us" link. The main content area is titled "Pathways" and contains a paragraph explaining that it is a thesaurus for subjects relating to Australian Aboriginal and Torres Strait Islander studies, language groups and people, and place names. Below this text, there are three icons: a globe with red dots, a book cover titled "guddee yarrabajay", and a map of Australia. At the bottom, there are three columns of links for "Subject", "Language", and "Place", each with "Search / Browse", "Browse By Top Term", "Download", and "Help" options.

# Who will work on your collection?

- What roles do you need?
  - Cultural Custodians
  - Archive Manager:
    - Planning and policies
    - Set up of storage
    - Resourcing/funding
    - Training of staff
  - Archive Coordinator/s:
    - Digitisation and cataloguing
    - Community access & engagement
    - Collection care and maintenance
- Do you need both men and women?
- Do you need funding for jobs?
- What training needed? Where sourced?
- Any partners or volunteers to assist?
- Any elements outsourced or all in-house?

See FNMA Resources: Staffing Policy; plus Planning templates

# Storage and handling of the collection

## Physical media storage

- Temperature/humidity control, air lock entry, dust reduction
- Shelving
- Archival quality boxes
- Shelf order/item IDs
- Access security
- Fire extinguishers

## Digital media storage

- Type(s) of storage - NAS/RAID, LTO, cloud – and backup onsite/offsite
- Data integrity routines

## Set up Disaster Management plan

See FNMA resources for Safe handling, Digital Storage and Disaster Management

5 Drive RAID Storage

# Prepare for digitisation

**Deadline 2025 for analogue recordings is coming fast, but...**

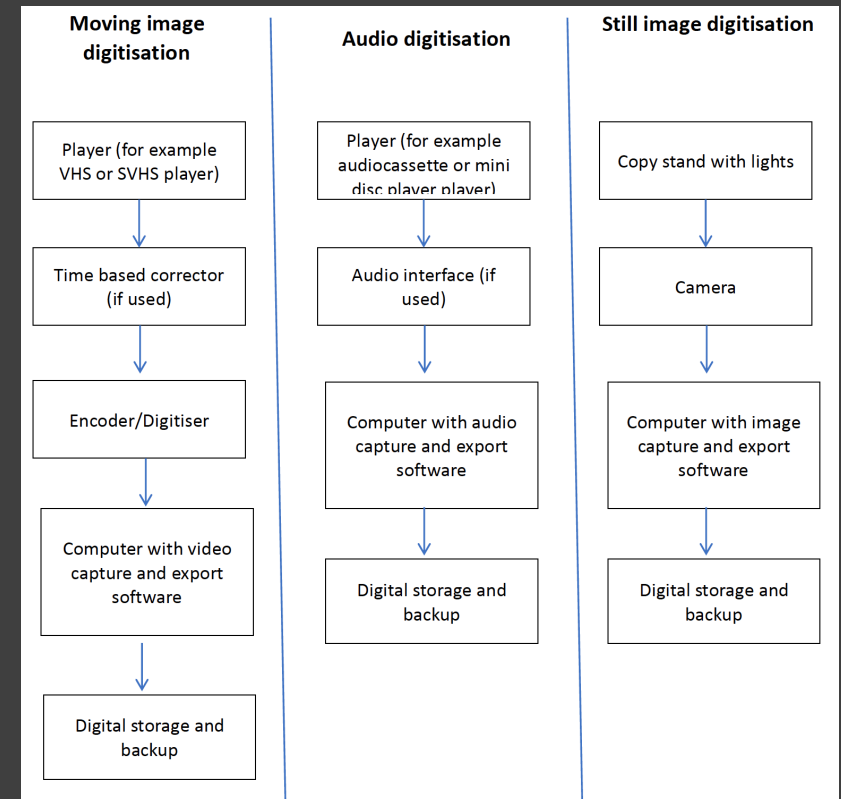

**Do it once, do it right. Plan first!**

Things to think about:

- Digitisation Priority Plan
- Digitisation equipment – what 's available? condition? What else needed?
- Where can digitisation be done? Who can do it?
- What formats for Preservation masters and access copies?
- Where will digital files be stored?
- Digitisation workflow for different media
- What to do with fragile or damaged media?

See FNMA resources for digitisation standards, equipment and software needs, priorities, workflows

## Digitisation Workflow by Media Type

# Archive Platform Review 2019 - Outcomes

## INVENTORY/COLLECTION MANAGEMENT OPTIONS

EXCEL  
THE COLLECTING BUG  
NEOFINDER

## INVENTORY/COLLECTION MANAGEMENT & CATALOGUING OPTIONS

ARCHIVE DEVELOPED DATABASE  
MUKURTU  
THE COLLECTING BUG

## ONLINE COMMUNITY ACCESS OPTIONS

- MUKURTU
- THE COLLECTING BUG
- KEEPING CULTURE

# Mukurtu Archiving Platform

- FNMA has set up a hub and spoke model of Mukurtu with specific sector needs
- Open source software, free license, used internationally
- Good for cataloguing and community access
- Links to access copies, not preservation masters
- Doing trial with three pilot organisations- PAKAM, PAW Media and Umeewarra Media. Doing training and support.
- Also collating a First Nations media history collection
- 'Open' records can be viewed by all users
- Seeking funding to expand to more orgs and provide ongoing training and support, and build collection

## Our archives, our stories

Selections from First Nations Community Media Archives

The *Our archives, our stories* platform is a pilot site for the use of Mukurtu by First Nations community media organisations. Three organisations are participating in the pilot. Some content will be viewable by the general public, other content will only be viewable by people with authorised logins.

Aboriginal and Torres Strait Islander people should be aware that this website may contain images, voices and names of people who have passed away.

If any content causes offense due to sorry or sensitive or other cultural matters please contact Ben Pridmore at First Nations Media Australia on 08 8952 6465

## First Nations Media History Archive

This Archive documents the history and activities of of the First Nations media sector since its inception in the 1970s-80s. It contains contributions from First Nations Media Australia and previous peak bodies as well as collections from organisations and people involved in the sector and shared with their permission (all rights remain with contributors).

If you have images you would like to contribute to this History collection, please contact Daniel Featherstone at [daniel@firstnationsmedia.org.au](mailto:daniel@firstnationsmedia.org.au).

Warning: Aboriginal and Torres Strait Islander people are advised that the media presented here may contain the names, images and voices of people who have passed away. Please advise of you would prefer any items removed from public viewing.

# Other FNMA activities

- Developing a First Nations Media Archiving manual and interactive online training resource, to complete in June.
- Working with Charles Darwin University to develop 3-unit VET skill set for archive workers to learn how to digitise and catalogue audio, video and photographs. Can be delivered by RTOs with scope for Cert 3 in Screen and Media.
- Digitisation facility in Alice Springs (pending ABA funding agreement) for digitising and training archive workers, plus mobile kit
- Developing a data collection and ingestion system with Ng Media
- Partnerships with NFSA, AIATSIS, Jumbunna Institute/UTS, Uni of Melbourne, NT Library and more
